

Appointments Announcement:

New Head of Business Development at HPI

Lewes, UK 08 June 2010. Health Partners International (HPI) is delighted to announce the appointment of Wendy Darby, Head of Business Development. Wendy, former Vice President of Partnerships at WomanCare Global, USA will assume the position immediately.

Wendy helped lead the spin-off of WomanCare Global, a for-profit arm of Ipas Inc. With a Masters in Business Administration from Theseus Institute, France, Wendy brings more than 14 years of international experience in managing and working in women's reproductive health programmes, human resource management, knowledge sharing and communications. Wendy was Regional Director Asia for Ipas, where she focused on national partnership development, capacity building, government and donor liaison and the management of NGO grants particularly in Nepal, India, Pakistan, Cambodia and Vietnam. Earlier, she was Programme Director, for the Aga Khan Foundation in Tajikistan. Wendy she started her career in health working as a Business Manager in Ipswich Hospital NHS Trust and quickly moved on Head of Staff Development and then later the Country Representative for Marie Stopes International in Vietnam.

Health Partners International is a leading provider of health sector expertise and programme management services. Supporting international targets for health, including the Millennium Development Goals, we assist low and middle income countries to strengthen health care for the poor. Health Partners International is an employee-owned partnership of health professionals. We are part of a dynamic network, which includes sister companies in Southern Africa, Ghana and Denmark and long-term partners in Nigeria and Europe.
